MNC'S PROFILE

MADRAS NETWORKING COMPANY

MNC, member of BICSI, One of the Fastest growing Networking company providing End-To-End IT Infrastructure Solutions in South India, HQ at Chennai.

Started by people who have 20+ years experience in Networking Industry

India's Leading Corporate Like **LNT, Bharti, Covansys, Allsec, ICICI Group, Amalgamation Group, TVS Group** etc. in the client list.

Implementing latest state of the art Technology Based Network Solutions with Our Own Installation Team.

WE DO NOT SUBCONTRACT internal Cabling work of our projects to other agencies.

We are the **First** to Implement *Intelligent Patching Solution* from SYSTIMAX Chennai for Allsec.

We are the first Implementing 10G over Copper Cabling Solution from SYSTIMAX in Chennai for Covansys

OUR CHIEF BUSINESS

- MNC's Core Business is IP Networking and the 70 to 80% of the revenue generating from IP Network business

- We are providing end to end solutions (System Integration Services) in Networking with latest state of the art Technologies combined with Network Equipment's like switches, Routers, Modems etc.

- Our solutions are bundled with all/any of the following

  ✓ Network Solutions
  ✓ Data Centre Solutions
  ✓ Cyber Security Solution
  ✓ Enclosures for Servers/Passive Networks-Racks
  ✓ Wireless LAN / WAN Solutions

SECURITY SOLUTIONS

- Being with a Networking platform, We are very proud to say that we are one of the leading companies to provide **Security and firewall** solutions.

- We have tie-ups with top managing companies that give complete threat prevention to the entire firm.

- We handle all the critical threat preventions and eliminate them with our solutions.

NETWORK INTERGRATION
Network Architecture

Data Solution

- Design, Implementation & Certification

SOFTWARE DEVELOPMENT

MNC's approach to software development is driven by a sole mantra – **the client's focus**. Our expertise in this platform helps us to certainly understand your authentic needs and offers solutions that are truly reflective of what you aspired to achieve and perceived to conquer.

- Web Application Development

- Mobile Application Development

- Database Management

- Application Maintenance

- Visitor Management System

SOFTWARE DEVELOPMENT

Visitor Management System - **VMS** tracks the usage of a business, public building, or site. By gathering increasing amounts of information, a visitor management system can record the usage of the facilities by specific visitors and provide documentation of visitor's whereabouts.

Backup Software – This takes and keeps a backup of important data residing on Pharma Instruments and other connected IOT devices. Our enterprise-level software is typically blended within each workstation, server or node and backs up chosen files and folders on a scheduled basis or as required.

Key Performance Indicator (KPI) Dashboard - It uses to measures, monitors, evaluates, tracks and reports environment, performance metrics considered material to managing our client's global business. We do this through a combination of data collection from various systems including SAP-HANA, JD-Edwards and other management systems. We use key performance indicators (KPIs) to measure and externally report our global performance.

ACCESS CONTROL SYSTEMS

- Biometric Finger Print Access Control System with attendance Software

- Proximity Access Control Systems with attendance Software

PUBLIC ADDRESS SYSTEMS

- ✓ Background/Channel Music System (for Hotels)
- ✓ School Broadcasting System (IVR Based) (for Educational Establishments)
- ✓ Industrial Paging System (for Industrial Setup & Yards)
- ✓ Nurse Calling System (for Hospitals)
- ✓ PA System for all Religious Establishments

WIRELESS LAN 802.11 b/g/n

Indoor Wireless LAN

Access point
